

Ian Mc Kinley: Overview of key publications

Strategy / Policy:

Mc Combie, C., Issler, H., **Mc Kinley I.G.**, High level waste disposal in Switzerland. Proc. 1989 Joint International Waste Management Conference, Kyoto (Slate,S.C., Kohout,R., Suzuki,A.,eds), Vol. 2, 399-402, (1990).

Mc Kinley, I.G., The management of long-lived nuclear waste, *Energy Policy*, 20, 683-692, (1992)

Mc Combie, C., **Mc Kinley, I.G.**, Lambert, A., Thury, M., Birkhäuser, P., The Swiss strategy for HLW siting; parallel investigation of two alternative host rocks. *Sci. Basis Nucl. Waste Manag.*, **XVIII**, 1363-1370, (1995).

Mc Kinley, I.G., Mc Combie, C., International collaboration - A key contribution to Nagra's R&D programme, *Proc. Spectrum '96*, pp1442-1448, (1996).

McKinley I.G., Zuidema P., Integrated planning of laboratory, in-situ, modelling and natural analogue studies in the Swiss radioactive waste management programme. *Proc. Internat. Symp. Technologies for the management of radioactive waste from nuclear power plants and back end nuclear fuel cycle activities*, IAEA/SM 357/52, (1999).

Mc Kinley I. G., High-level radioactive waste management: R&D challenges for the 21st century. *Proc. JNC Research Symp.*, JNC TN 1400 2004-015 (2005).

Kitayama, K., Ueda, H., Sakabe, Y., Umeki, H., **McKinley, I.G.**, Kaku, K. A structured approach for stepwise design of HLW repositories tailored to volunteer sites. *Proc. IAEA Conf. Safety of Radioactive Waste Disposal*, Tokyo, (2005).

Safety Assessment

Mc Kinley I.G., Bradbury M., Near-field geochemistry of vitrified HLW in a sedimentary host rock, *Sci. Basis Nucl. Waste Manag.*, **XII**, 645-651, (1989).

Sargent, F.P., **Mc Kinley I.G.**, Geochemical and chemical data and modelling for the safety assessment of geological disposal of high-level nuclear waste. *Proc. OECD-NEA Symp, Safety assessment of radioactive waste repositories*, 543-556, (1990).

Mc Combie C., **Mc Kinley I.G.**, Zuidema P., Nagra performance assessment of radioactive waste

disposal in crystalline and sedimentary host rocks. Proc. 1st Conf. High Level Waste Management (Las Vegas), Vol 1, 348-352, (1990).

Mc Combie C., Zuidema P., **Mc Kinley I.G.**, Sufficient validation: The value of robustness in performance assessment and system design. Validation of geosphere flow and transport models (Geoval), OECD, Paris, pp 598-610, (1991).

McKinley I.G., Kawamura H., Kitayama K., Smith P.A., Validation of performance assessments for nuclear waste repositories. Proc. ESREL'98, 1185-1191 (1998).

Kawamura, H., **McKinley, I.G.**, Integrated safety case development for deep geological repositories. Proc. ESDRED workshop, Andra, 9-1 – 9-10 (2008).

McKinley, I.G., Alexander, W.R., Special issues for coastal sites. In Connor, C. et al. (Eds.) Volcanism, tectonism and siting nuclear facilities, CUP, in press.

McKinley, I.G., Chapman, N.A., The impact of subsidence, uplift and erosion on geological repositories for radioactive wastes. In Connor, C. et al. (Eds.) Volcanism, tectonism and siting nuclear facilities, CUP, in press.

Repository Design / Materials:

Mc Kinley, I.G., Engineering for robustness: an approach to optimising HLW disposal concepts, Waste Management 17, 1-8 (1997).

McKinley, I.G., Kawamura, H., Neall, F., Ando, K., Repository design optimisation for long-lived ILW, Sci. Basis Nucl. Waste Manag., XXIV, 843-850 (2001)

McKinley, I.G., Kawamura, H., Tsuchi, H., Moving HLW-EBS concepts into the 21st Century, Sci. Basis Nucl. Waste Manag., XXIV, 723-729 (2001)

McKinley I.G., Toyota M., Increasing transparency of the safety case during optimization of repository design. Proc. WM'98 (1998).

Toyota M., **McKinley I.G.**, Optimisation of the engineered barrier system for vitrified HLW - Fabrication and emplacement aspects. Proc. 8th Internat. HLRWM Conf., 648-652 (1998).

Mc Kinley, I.G., Neall, F., Smith, P.A., West, J.M., Kawamura, H., Evolution of the Cavern Extended Storage (CES) concept for flexible management of HLW, Sci. Basis Nucl. Waste Manag., XXVII, 931-936, (2004).

McKinley, I.G., Alexander, W.R., Blaser, P., Development of geological disposal concepts. In Alexander, W.R. & McKinley, L.E. (Eds) Deep geological disposal of radioactive waste, Elsevier,

pp. 41-76 (2007).

Kawamura, H., **McKinley, I.G.**, Neall, F.B., Practical and safe implementation of disposal with prefabricated EBS modules. Proc. ESDRED workshop, Andra, 8-1 – 8-9 (2008).

Grimsel / Underground Test Sites

Kickmaier, W., **Mc Kinley, I.G.**, A review of research carried out in European rock laboratories. Nuclear Engineering & Design, **176**, 75-81 (1997).

Smith, P.A., Alexander, W.R., Kickmaier, W., Ota, K., Frieg, B., **McKinley, I.G.**, Development and testing of radionuclide transport models for fractured rock: Examples from the Nagra / JNC Radionuclide Migration Programme in the Grimsel test site, Switzerland, J. Contaminant Hydrol. **47**, 335-348 (2001) [also in Japanese in JNC technical review 11, JNC TN 1340 2001-006].

Kickmaier, W., Alexander, W.R., Vomvoris, S., **McKinley, I.G.**, Grimsel 2000 - Status of international projects at the Grimsel Test Site (GTS), Sci. Basis Nucl. Waste Manag., XXIV, 893-900 (2001).

Biggin, C., Möri, A., Alexander, W.R., Ota, K., Frieg, B., Kickmaier, W., **McKinley, I.G.** *In situ* radionuclide retardation in groundwater conducting systems: overview of the research carried out at Nagra's Grimsel Test site, central Switzerland. pp 207-228 *in* Environmental Radiochemical Analysis II (ed P. Warwick) RSC, London, UK. (2003).

Kickmaier, W., Vomvoris, S., **McKinley, I.G.**, Alexander, W.R., Grimsel Test Site: challenges for the 21st century and beyond. European Geologist, No.19, 19-22 (2005).

Radionuclide sorption / migration /barriers

Mc Kinley, I.G., West, J.M., Radionuclide sorption on argillaceous rocks from Harwell, Oxfordshire, Rad. Waste Manag. Nuc. Fuel Cycle, **4**, 379-399, (1983).

Mc Kinley I.G., West J.M., Radionuclide retardation in the near- and far-field of a HLW repository. The geological disposal of high-level radioactive wastes (D.G.Brookins,ed), 445-458, (1987).

Alexander, W.R., Smith, P.A., **McKinley, I.G.**, Modelling radionuclide transport in the geological environment: a case study from the field of radioactive waste disposal. In Scott, E.M. (ed.), Modelling radioactivity in the environment, Elsevier, pp. 109-145 (2003).

Wersin, P., Johnson, L.H., **McKinley, I.G.** Performance of the bentonite barrier at temperatures

beyond 100 °C: A critical review. *Physics and Chemistry of the Earth*, **32**, 780-788 (2007).

Natural Analogues

Mc Kinley, I.G., MacKenzie, A.B., West, J.M., Scott, R.D., A natural analogue study of radionuclide migration in clays, *Sci. Basis Nucl. Waste Manag.*, **VII**, 851-857, (1984).

Mc Kinley I.G., Bath A., Berner U., Cave M., Neal C., Results of the Oman analogue study, *Radiochimica Acta*, **44/45**, 311-316, (1988).

Mc Kinley I.G., Applying natural analogues in predictive performance assessment : 1. Principles and requirements; 2. Examples and discussions. *Risk analysis in nuclear waste management* (A.Saltelli, D.A.Stanners, M.D`Alessandro,eds), 359-375; 377-396 (1989).

Alexander W.R., **Mc Kinley I.G.**, MacKenzie A.B., Scott R.D., Verification of matrix diffusion by means of natural decay series disequilibria in a profile across a water-conducting fracture in granitic rock, *Sci. Basis Nucl. Waste Manag.*, **XIII**, 567-576, (1990).

Mc Kinley, I.G., Alexander, W.R., Use of natural analogues to test performance assessment models of a cementitious near field, *Waste Manag.*, **12**, 253-259, (1992)

Mc Kinley I.G., The role of natural analogues in nuclear waste repository performance assessment with particular emphasis on experience in Switzerland. *Reliability Engineering and System Safety*, **42**, 233-246, (1993).

Radiochemistry / Methodology

MacKenzie, A.B., Baxter, M.S., **Mc Kinley, I.G.**, Swan, D.S., Jack, W., The determination of Cs-134, Cs-137, Pb-210, Ra-226 and Ra-228 concentrations in nearshore sediments and seawater, *J.Radioanal.Chem.*, **48**, 27-49, (1979).

Swan, D.S., Baxter, M.S., **Mc Kinley, I.G.**, Jack, W., Radiocaesium and Pb-210 in Clyde Sea loch sediments, *Est.Coast.Shelf Sci.*, **15**, 515-536, (1982).

Mc Kinley I.G., Alexander W.R., Constraints on the applicability of "in -situ" Kd values. *J. Environ. Radioactivity*, **15**, 19-34, (1992).

Mc Kinley, I.G., Alexander, W.R., Assessment of radionuclide retardation : uses and abuses of natural analogue studies , *J. Contaminant Hydrology*, **13**, 249-259; response to comments 271-275, (1993).

Model / Database development

Mc Kinley, I.G., Baxter, M.S., Jack, W., A simple model of radiocaesium transport from Windscale to the Clyde Sea Area, *Est. Coast. Shelf Sci.*, **13**, 59-67, (1981).

Mc Kinley, I.G., Hadermann, J., Radionuclide sorption database for Project Gewähr, Nagra NTB 84-40 / EIR Ber. 550 (1984).

Baeyens B., **Mc Kinley I.G.**, A PHREEQE database for Ni, Pd and Se. Nagra NTB 88-28 / PSI Bericht 34, (1989).

Mc Kinley I.G., Grogan H.A., Radionuclide sorption databases for Swiss repository safety assessments. *Radiochim. Acta*, **52/53**, 415-420, (1991).

Mc Kinley, I.G., Scholtis, A., A comparison of radionuclide sorption databases used in recent performance assessments, *J. Contaminant Hydrology*, **13**, 347-363, (1993).

Geomicrobiology

West, J.M., **Mc Kinley, I.G.**, Chapman, N.A., Microbes in deep geological systems and their possible influence on radioactive waste disposal, *Rad. Waste Manag. Nuc. Fuel Cycle*, **3**, 1-15, (1982).

Mc Kinley I.G., Grogan H., Consideration of microbiology in modelling the near-field of a L/ILW repository. *Experientia*, **47**, 573-577, (1991)

West, J.M., **Mc Kinley, I.G.**, Stroes-Gascoyne, S., Microbial effects on waste repository materials. In Kieth-Roach, M. J., Livens, F.R. (eds.), *Microbiology and Radioactivity*, Elsevier, 255-277 (2002).

West, J.M., **Mc Kinley, I.G.**, The geomicrobiology of nuclear waste disposal. In Bitton, G. (ed.), *The encyclopedia of environmental microbiology*, Wiley, 2661-2674 (2002).

West, J.M., **McKinley, I.G.**, Neall, F.B., Rochelle, C.A., Bateman, K., Kawamura, H., Quantitative evaluation of the geochemical / microbiological processes within extended storage repositories. *Sci. Basis Nucl. Waste Manag.*, **XXIX**, 79-86 (2006). **McKinley, I.G.**, West, J.M., Alexander, W.R., Yoshida, H., Kawamura, H., Microbial catalysis of redox reactions in deep geological environments, *Geomicrobiology J.*, submitted.

Knowledge Management

Kawata. T., Umeki, H, **McKinley, I.G.**, Knowledge Management: the Emperor's New Clothes?

International High Level Radioactive Waste Management Conference, 1236 – 1243 (2006)

Umeki, H., Ohsawa, H., Naito, M., Nakano, K., Makino, H., **McKinley, I.G.**, Knowledge Management -The Cornerstone of A 21st Century Safety Case, International Symposium: Safety Case for the Deep Disposal of Radioactive Waste: Where do We Stand?, 23-25, January 2007, Paris, 211-219, (2008)

Kawata, T., Umeki, H., Osawa, H., Nakano, K., Makino, H., Naito, M., **McKinley, I.G.**, Knowledge Management: sine qua non for HLW disposal in the 21st century. J. Nucl. Knowledge Manag., in press.

Coastal Oceanography

Mc Kinley, I.G., Baxter, M.S., Ellett, D.J., Jack, W., Tracer applications of radiocaesium in the Sea of the Hebrides, Est.Coast.Shelf Sci., **13**, 69-82, (1981).

Mc Kinley, I.G., Baxter, M.S., A radiotracer study of water renewal and sedimentation in a Scottish fjord, Fjord Oceanography (Plenum Press), pp539-544, (1980).

Popular science articles

Chapman N.A., **Mc Kinley I.G.**, 1990. Radioactive waste : back to the future?, New Scientist No. 1715 (5 May), 54-58 also Atom , No. 408, 22-26, (1990).

Mc Kinley, I.G., The fuel cycle and nuclear waste management, Speaking of nuclear energy, IAEA/PI7A36E, Vienna, 91-97, (1992).
